

FPS Registered Grape Selections Available as Dormant Cuttings & MPPs

Foundation Plant Services Plant Introduction & Distribution Office

University of California
One Shields Avenue
Davis, California
95616-8600

Phone: (530) 752-2022

FAX: (530) 752-2132

Web: <http://fps.ucdavis.edu>

UCDAVIS

Limited quantities of dormant unrooted, ungrafted hardwood cuttings with California Foundation Stock status may be ordered from FPS for the selections listed here. FPS sources of Foundation Stock have tested negative for a specific panel of diseases, are planted and maintained in the FPS Foundation Vineyard, and have been professionally identified by experts, all in accordance with CDFA California Grapevine Registration & Certification Program regulations.

Orders for dormant grape material must be received by FPS on or before November 15th each year to be included in the first allocation of available materials. After November 15th, any remaining material will be sold on a first-come, first-served basis. When demand for materials exceeds the supply, priority is given to participants in the California Grapevine Registration & Certification Program. Delivery normally occurs from late January through early March. If a particular delivery date is needed, please be sure to note this on your order form.

Registered selections may also be custom ordered as mist propagated plants (MPPs)-green plants on their own roots in 4" pots of planting medium. Since MPPs are produced only after an order is received, orders may be submitted at any time of year, however if you want to order MPPs for pickup from Spring through late Summer, it is best to order them by November 15th of the prior year. If an order is particularly large or FPS has many orders for the same selection(s), it can sometimes take more than a single season to complete an order, especially if you're requesting plants of newly-registered selections.

Additional important information on ordering, shipping and billing procedures for FPS materials can be found at:

<http://fps.ucdavis.edu/WebSitePDFs/Protocols/NewCustInfo.pdf>

Material prices and terms of sale can be viewed at:

<http://fps.ucdavis.edu/WebSitePDFs/Price&VarietyLists/GrapeMaterialPriceList.pdf>

For additional detailed information about these selections, including sources, disease elimination treatment status and relevant comments, as well as varietal information and descriptions, including synonym information, please visit the National Grape Registry (NGR) Web site maintained by FPS at:

<http://ngr.ucdavis.edu>

The NGR site contains information about varieties and selections of wine, table, raisin, juice and rootstock varieties available in the United States. Growers, nurseries, winemakers and researchers can find background information and source contacts for these materials in one convenient location.
